

future City

COMPETITION

Future City Creates Future Engineers
4500+ volunteers to make it possible
We need you!

Anna Zola, Mentor, New Jersey Region
Future City became my passion. Now it's part of my life. Everywhere I go, I look for ideas and innovations.

What is Future City?

Doing things that engineers do, kids build cities of the future showcasing their solution to a citywide sustainability issue.

2025-2026 Theme: Farm to Table

Who can Mentor?

- Engineers
- Technicians
- Project Managers
- STEM Professionals

Role of the Mentor

Future City is student-led, but mentors are an integral part of the team. You could:

- Share information about your career
- Explore research resources with the team
- Be a sounding board for the team's ideas
- Offer feedback on the team's City Essay
- Help the team polish their City Presentation
- Practice Q&A with the team
- Help the team determine a City Model scale
- **Mentor Time Commitment**

- **15-25 Hours September-February**

*All Mentors require a background check
